Stations of the Tide Michael Swanwick

From author Michael Swanwick?one of the most brilliantly assured and darkly inventive writers of contemporary fiction?comes a masterwork of radically altered realities and world-shattering seductions.

The Jubilee Tides will drown the continents of the planet Miranda beneath the weight of her own oceans. But as the once-in-two-centuries cataclysm approaches, an even greater catastrophe threatens this dark and dangerous planet of tale-spinners, conjurers, and shapechangers.

A man from the Bureau of Proscribed Technologies has been sent to investigate. For Gregorian has come, a genius renegade scientist and charismatic bush wizard. With magic and forbidden technology, he plans to remake the rotting, dying world in his own evil image?and to force whom or whatever remains on its diminishing surface toward a terrifying and astonishing confrontation with death and transcendence.

This novel of surreal hard SF was compared to the fiction of Gene Wolfe when it was first published, and the author has gone on in the two decades since to become recognized as one of the finest living SF and fantasy writers.
