False Prophets of False Profits: Secrets of How Foreign Nations Stole Our Jobs and How to Take Our Jobs Back BJ Williamson

Wouldn't you like to know the answer to the "Trillion dollar question"--**Where did 15 Million US jobs go?**

If you are an American college graduate worried about the future and finding a good job, you need to read this book.

Or if you are an American worried about losing your job to a foreign worker, or if you lost a good job to a foreign worker this book was written to help you.

Or, if you are a veteran struggling to get educational and job opportunities--don't lose heart. There are many people who appreciate your sacrifice and care about your future and your family.

It is time to expose how contrived university studies were used to steal jobs from Americans. BJ Williamson has done years of research to trace this outsourcing weed choking out our jobs back to its roots. It is time to pull the weed.

BJ has also developed an Economic Circulation model that shows why it doesn't really save money when our businesses and government 'transfer' our jobs to foreign workers. Transferring our jobs to foreign workers only creates an illusion of cost savings. Accounting tricks were used to take our jobs, and to cheat us out of fair returns on our stock investments.

When our politicians, professors, and media claim that immigrant entrepreneurs are driving our economy--they are right. The ones transferring our jobs to foreign workers and to their native country are driving our economy rapidly towards a financial cliff. We need leaders who care about the American people driving our economy into a bright future.
