The International Law Commission's Articles on State Responsibility: Introduction, Text and Commentaries James Crawford

The International Law Commission's Articles, adopted in 2001, mark a major step in international law. They define when there has been a breach of international law and the consequences of such breaches. They show how international law now allows for categories of general public interest-- human rights, the environment, etc... Including a full introduction, the text of the Articles and commentary, plus a guide to the legislative history, a detailed index and table of cases, this volume will be an indispensable accompaniment to the ILC's work on this vital topic.
