Botanical Colour at your Fingertips Rebecca Desnos

Do you love plants? Do you love crafting? Would you like to dye your own fabric, yarn or clothing? Learn the relaxing art of botanical dyeing with natural dyer, Rebecca Desnos. Connect with nature and open your eyes to the colour potential of plants. Discover how to:

- produce a wide palette of colours, including pink from avocados, yellow from pomegranates and coral from eucalyptus leaves.
- extract dye from just about any plant from the kitchen, garden or wild.
- use the ancient method of soya milk mordanting to achieve rich and long-lasting colour on plant fibres, such as cotton and linen.
- produce reliable colours that withstand washing and exposure to light.

If you enjoy sewing, knitting or any other fibre craft, this is the book for you.

From reader reviews:

Jose Suh:

What do you think about book? It is just for students since they're still students or the idea for all people in the world, what the best subject for that? Merely you can be answered for that concern above. Every person has various personality and hobby for each other. Don't to be compelled someone or something that they don't want do that. You must know how great and also important the book Botanical Colour at your Fingertips. All type of book is it possible to see on many methods. You can look for the internet solutions or other social media.

Marlene Wiedman:

What do you with regards to book? It is not important along with you? Or just adding material when you need something to explain what yours problem? How about your time? Or are you busy individual? If you don't have spare time to do others business, it is make one feel bored faster. And you have free time? What did you do? Every individual has many questions above. They have to answer that question due to the fact just their can do this. It said that about book. Book is familiar in each person. Yes, it is right. Because start from on pre-school until university need this particular Botanical Colour at your Fingertips to read.

Lashunda McCloud:

Reading a reserve tends to be new life style in this particular era globalization. With looking at you can get a lot of information that can give you benefit in your life. Along with book everyone in this world can certainly share their idea. Publications can also inspire a lot of people. Lots of author can inspire all their reader with their story or maybe their experience. Not only the storyline that share in the ebooks. But also they write about the information about something that you need case in point. How to get the good score toefl, or how to teach your young ones, there are many kinds of book which exist now. The authors in this world always try to improve their expertise in writing, they also doing some analysis before they write to the book. One of them is this Botanical Colour at your Fingertips.

Philip Nguyen:

Many people spending their time by playing outside having friends, fun activity using family or just watching TV the entire day.
