Triumph over Bipolar Disorder is exactly what it sounds like; one family's traumatic journey through a nightmarish disease, compounding social, economical, marital and familial aspects of the author's life. No details are spared as to the accounts of dealing with someone with bipolar disorder. 40 years in the making, this story is as much a testament to the author's love for her husband as it is a no-holds-barred retelling of the rocky path they trod to still be together today and fighting the disease in tandem. The story is very unique and frequently unbelievable. Often truth is stranger than fiction.
