Asynchronous iOS Networking Programming: Consuming REST Services with Grand Central Dispatch and Core Data (Developer's Library) Andrew W. Donoho

As Apple's iPhone and iPad become ever more popular, demand for feature-rich iOS-based business apps is soaring. Many of these apps rely on web services to connect server data with mobile front ends. This presents complex challenges: apps must provide responsive interfaces while seamlessly integrating networks and databases. Suddenly, iOS developers must master advanced asynchronous programming techniques that utilize REST services and industry standards such as XMLRPC and SOAP. In this book, a leading expert in iOS asynchronous programming presents patterns, best practices, and sample code for incorporating virtually any service into any iPad or iPhone app. Going far beyond the basics, Andrew Donoho shows how to fully leverage the iOS development platform to create production-quality solutions. Combining "top-down" theory with "bottom-up" code examples, he offers fully-functional solutions to these and many other common problems:

- * Building apps that interact with the cloud
- * Mastering iOS threads and blocks
- * Implementing OAuth message validation
- * Moving Core Data threads to the background
- * Making the most of Apple's Push Notification Services
- * Integrating Twitter feeds into apps
- * Using Grand Central Dispatch to optimize Core Data performance

Asynchronous iOS Networking Programming will be indispensable for every experienced iOS commercial or enterprise developer: an already sizable audience that's growing at breakneck speed.

From reader reviews:

Diane Gibbons:

This Asynchronous iOS Networking Programming: Consuming REST Services with Grand Central Dispatch and Core Data (Developer's Library) book is absolutely not ordinary book, you have after that it the world is in your hands. The benefit you will get by reading this book is usually information inside this e-book incredible fresh, you will get details which is getting deeper you actually read a lot of information you will get. This specific Asynchronous iOS Networking Programming: Consuming REST Services with Grand Central Dispatch and Core Data (Developer's Library) without we know teach the one who studying it become critical in contemplating and analyzing. Don't become worry Asynchronous iOS Networking Programming: Consuming REST Services with Grand Central Dispatch and Core Data (Developer's Library) can bring any time you are and not make your handbag space or bookshelves' become full because you can have it within your lovely laptop even phone. This Asynchronous iOS Networking Programming: Consuming REST Services with Grand Central Dispatch and Core Data (Developer's Library) having great arrangement in word along with layout, so you will not sense uninterested in reading.

Edna Brooks:

Hey guys, do you wishes to finds a new book to see? May be the book with the name Asynchronous iOS Networking Programming: Consuming REST Services with Grand Central Dispatch and Core Data (Developer's Library) suitable to you? The actual book was written by well-known writer in this era. Often the book untitled Asynchronous iOS Networking Programming: Consuming REST Services with Grand Central Dispatch and Core Data (Developer's Library) is a single of several books in which everyone read now. That book was inspired a number of people in the world. When you read this guide you will enter the new way of measuring that you ever know prior to. The author explained their strategy in the simple way, therefore all of people can easily to understand the core of this reserve. This book will give you a wide range of information about this world now. To help you to see the represented of the world on this book.

Alice Navarro:

Are you kind of hectic person, only have 10 or even 15 minute in your day to upgrading your mind skill or thinking skill actually analytical thinking? Then you have problem with the book when compared with can satisfy your short space of time to read it because this all time you only find publication that need more time to be read. Asynchronous iOS Networking Programming: Consuming REST Services with Grand Central Dispatch and Core Data (Developer's Library) can be your answer because it can be read by anyone who have those short extra time problems.

Wendell Radford:

As a pupil exactly feel bored to reading. If their teacher requested them to go to the library as well as to make summary for some e-book, they are complained. Just tiny students that has reading's internal or real their

pastime. They just do what the instructor want, like asked to the library. They go to there but nothing reading significantly. Any students feel that reading through is not important, boring in addition to can't see colorful pictures on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Asynchronous iOS Networking Programming: Consuming REST Services with Grand Central Dispatch and Core Data (Developer's Library) can make you experience more interested to read.
