## **Hands-On Science: Sound and Light** Jack Challoner, Maggie Hewson

These giant books containing exciting projects and experiments take a hands-on approach to science concepts. Hundreds of simple and easy experiments explore the various scientific principles behind natural phenomena like friction, centrifugal force, and the underlying laws of physics that help make machines work. These fun yet practical experiments make it easy for anyone to become a rocket scientist!

Sound and light may seem like things we know everything about, but by conducting the easy to navigate science experiments in Hands-On Science: Sound and Light by Sarah Angliss and Maggie Hewson, young learners will see that there is *much* more than meets the eye. Through these informative and easy to conduct experiments and activities, budding scientists will discover the interesting and often-changing characteristics of materials in their everyday world.
