Learning Analytics in R with SNA, LSA, and MPIA Fridolin Wild

This book introduces Meaningful Purposive Interaction Analysis (MPIA) theory, which combines social network analysis (SNA) with latent semantic analysis (LSA) to help create and analyse a meaningful learning landscape from the digital traces left by a learning community in the co-construction of knowledge.

The hybrid algorithm is implemented in the statistical programming language and environment R, introducing packages which capture – through matrix algebra – elements of learners' work with more knowledgeable others and resourceful content artefacts. The book provides comprehensive package-by-package application examples, and code samples that guide the reader through the MPIA model to show how the MPIA landscape can be constructed and the learner's journey mapped and analysed. This building block application will allow the reader to progress to using and building analytics to guide students and support decision-making in learning.

From reader reviews:

Margarita Toman:

Typically the book Learning Analytics in R with SNA, LSA, and MPIA has a lot info on it. So when you read this book you can get a lot of advantage. The book was compiled by the very famous author. The author makes some research just before write this book. This particular book very easy to read you will get the point easily after scanning this book.

Marguerite Boutte:

Reading can called mind hangout, why? Because if you find yourself reading a book especially book entitled Learning Analytics in R with SNA, LSA, and MPIA your thoughts will drift away trough every dimension, wandering in most aspect that maybe not known for but surely will end up your mind friends. Imaging every single word written in a guide then become one application form conclusion and explanation in which maybe you never get ahead of. The Learning Analytics in R with SNA, LSA, and MPIA giving you another experience more than blown away your brain but also giving you useful facts for your better life in this era. So now let us demonstrate the relaxing pattern is your body and mind is going to be pleased when you are finished reading through it, like winning a game. Do you want to try this extraordinary paying spare time activity?

Patricia Northcutt:

Do you really one of the book lovers? If yes, do you ever feeling doubt when you find yourself in the book store? Aim to pick one book that you just dont know the inside because don't assess book by its deal with may doesn't work the following is difficult job because you are scared that the inside maybe not since fantastic as in the outside search likes. Maybe you answer is usually Learning Analytics in R with SNA, LSA, and MPIA why because the amazing cover that make you consider with regards to the content will not disappoint anyone. The inside or content is usually fantastic as the outside or even cover. Your reading 6th sense will directly show you to pick up this book.

Patricia Little:

A lot of publication has printed but it takes a different approach. You can get it by world wide web on social media. You can choose the best book for you, science, comedian, novel, or whatever by simply searching from it. It is known as of book Learning Analytics in R with SNA, LSA, and MPIA. You can contribute your knowledge by it. Without leaving behind the printed book, it could add your knowledge and make a person happier to read. It is most critical that, you must aware about book. It can bring you from one place to other place.
