DOT CHESS-The Cricket in Between, is a book about how chess theories are being applied to Cricket and how the basic factors that influence cricket can be used as the paramters to alter the balance of a game. Results are based on observations of real international matches and also on an axiomatic approach to arrive at assessments. Amazingly, a 'dot ball' is the basis of all that goes on a cricket match, as it offers the margins to experiment for both batsmen and bowlers.

You will find references of views/performances of cricketers from Sir Don Bradman to modern day players Sachin Tendulkar, Brian Lara, Glenn McGrath, Shane Warne and Shaun Pollock and other international players.
