After his younger sister is killed in a tragic accident, William Palmer's family flees their quiet Warwickshire village for the bustling metropolis of Elizabethan London. The deaths of his parents and the marriage of his remaining sister soon separate William from his family. Taken on by a company of actors in an era where women are forbidden onstage, William makes a good living playing the parts of young girls and beautiful maidens. As he gets older, William finds himself growing out of the female stage parts, even as he develops a less than strictly professional interest in his co-star, Jack Hawkins. The course of true love never did run smooth, and William soon finds himself torn between Jack, the return of an elder sister who needs his help, and the mysterious and intriguing son of the company's patron, Lord Evering.
