Thinking After Europe: Jan Patočka and Politics

Thinking After Europe: Jan Patočka and Politics

Jan Patočka, perhaps more so than any other philosopher in the twentieth century, managed to combine intense philosophical insight with a farsighted analysis of the idea and challenges facing Europe as a historical, cultural and political signifier. As a political dissident in communist Czechoslovakia he also became a moral and political inspiration to a generation of Czechs, including Václav Havel. He accomplished this in a time of intense political repression when not even the hint of a unified Europe seemed visible by showing in exemplary fashion how concrete thought can be without renouncing in any way its depth.

Europe as an idea and a political project is a central issue in contemporary political theory. Patočka's political thought offers many original insights into questions surrounding the European project. Here, for the first time, a group of leading scholars from different disciplines gathers together to discuss the specific political impact of Patočka's philosophy and its lasting significance.
