What if technology could change your brain?

A venture capitalist with a brain-damaged mother

At thirty-five, Mike Cohen lives the American dream. With billions in the bank and his own venture capital firm, he's succeeded beyond his Russian immigrant mother's wildest hopes. The only problem? A car accident that leaves Mike's mother with memory problems.

A technology that can transform the world

Brainocytes, a new technology developed by one of Mike's portfolio companies, may be the answer to his mother's injury—and offer applications that push the limits of the human mind. Only Mike isn't the only one who sees its potential.

A ruthless enemy with a dark agenda

When a routine hospital trial turns into a violent kidnapping, Mike is plunged into a criminal underworld darker than anything he could've imagined. From the streets of Manhattan to the nightclubs of Moscow, Mike and his allies will have to use all their ingenuity to survive... and save the one he loves.

From reader reviews:

Dorothy Guillen:

In this 21st hundred years, people become competitive in most way. By being competitive right now, people have do something to make these survives, being in the middle of the particular crowded place and notice by means of surrounding. One thing that sometimes many people have underestimated this for a while is reading. That's why, by reading a e-book your ability to survive increase then having chance to endure than other is high. For yourself who want to start reading any book, we give you this particular Human++ book as nice and daily reading publication. Why, because this book is usually more than just a book.

David Shields:

Nowadays reading books be a little more than want or need but also work as a life style. This reading behavior give you lot of advantages. Associate programs you got of course the knowledge the rest of the information inside the book that improve your knowledge and information. The data you get based on what kind of publication you read, if you want drive more knowledge just go with education books but if you want really feel happy read one along with theme for entertaining such as comic or novel. Often the Human++ is kind of reserve which is giving the reader unforeseen experience.

Regina Schubert:

Reading a publication can be one of a lot of pastime that everyone in the world loves. Do you like reading book thus. There are a lot of reasons why people enjoyed. First reading a reserve will give you a lot of new info. When you read a reserve you will get new information simply because book is one of several ways to share the information or maybe their idea. Second, studying a book will make anyone more imaginative. When you looking at a book especially tale fantasy book the author will bring you to definitely imagine the story how the figures do it anything. Third, you may share your knowledge to other people. When you read this Human++, you could tells your family, friends along with soon about yours reserve. Your knowledge can inspire the others, make them reading a book.

Heather Stewart:
