\*\*\*Contains Strong Violence, Language, and Sexual Content, 18+ Please\*\*\* After surviving a gunshot to the head, Sori Knight inherited the ability to switch off her emotions, at will. A former Marine, she is recruited into a top secret spy organization where she quickly becomes one of their best agents. Sori's ability to flip a metaphysical switch and become a woman without a conscience makes her the ultimate killing machine. When an assignment leads Sori on the trail of the deadliest criminal she's ever had to hunt, she is forced to unleash her inner-monster, a secret she has stubbornly refused to face. With death around every corner, she realizes the beast she keeps hidden within maybe her only hope for survival. Mycale Phillips is new to the spy world, but his reputation is deadly. His attraction to Sori is instantaneous. Although Sori curses like a drunken sailor and leaves a trail of bodies no matter where she goes, Mycale finds that her personality traits has no impact on the way her very presence unravels his carefully constructed control. Although their romantic fire and smoking hot connection leaves them breathless, Sori and Mycale begin a reign on crime that's legendary. Following Sori's lead, Mycale learns that a touch of madness is necessary for survival in a world of Smoke & Fire. Will secret abilities they are determined to hide from each other be enough to pull them from the clutches of Death? Warning: Although this book doesn't end in a cliffhanger, it does leave lingering questions that will be answered throughout the series. Answers will be revealed as soon as my characters stop being so hardheaded and tell me what's going on. Note: The books in this series have been time-lined so that they can be read in any order. This means characters in this series will interact across titles. If you find you've connected with a particular character or characters and would like to see them again, they will likely turn up in other books of this series.
