ISO/TC 67/SC 3

ISO 10416:2002, Petroleum and natural gas industries - Drilling fluids - Laboratory testing ISO/TC 67/SC 3

ISO 10416:2002 provides procedures for the laboratory testing of both drilling fluid materials and drilling fluid physical, chemical and performance properties. It is applicable to both water-based and oil-based drilling fluids, as well as the base or make-up fluid. It is not intended as a detailed manual on drilling fluid control procedures. Recommendations regarding agitation and testing temperature are presented because the agitation history and temperature have a profound effect on drilling fluid properties.
