## **Vein Pattern Recognition: A Privacy-Enhancing Biometric** Chuck Wilson

As one of the most promising biometric technologies, vein pattern recognition (VPR) is quickly taking root around the world and may soon dominate applications where people focus is key. Among the reasons for VPR's growing acceptance and use: it is more accurate than many other biometric methods, it offers greater resistance to spoofing, it focuses on people and their privacy, and has few negative cultural connotations.

**Vein Pattern Recognition: A Privacy-Enhancing Biometric** provides a comprehensive and practical look at biometrics in general and at vein pattern recognition specifically. It discusses the emergence of this reliable but underutilized technology and evaluates its capabilities and benefits. The author, Chuck Wilson, an industry veteran with more than 25 years of experience in the biometric and electronic security fields, examines current and emerging VPR technology along with the myriad applications of this dynamic technology. Wilson explains the use of VPR and provides an objective comparison of the different biometric methods in use today—including fingerprint, eye, face, voice recognition, and dynamic signature verification.

Highlighting current VPR implementations, including its widespread acceptance and use for identity verification in the Japanese banking industry, the text provides a complete examination of how VPR can be used to protect sensitive information and secure critical facilities. Complete with best-practice techniques, the book supplies invaluable guidance on selecting the right combination of biometric technologies for specific applications and on properly implementing VPR as part of an overall security system.

### **From reader reviews:**

#### **Vincent Overly:**

What do you concentrate on book? It is just for students since they're still students or the item for all people in the world, the particular best subject for that? Only you can be answered for that query above. Every person has different personality and hobby for each other. Don't to be forced someone or something that they don't would like do that. You must know how great and important the book Vein Pattern Recognition: A Privacy-Enhancing Biometric. All type of book could you see on many options. You can look for the internet sources or other social media.

#### **Richard Poston:**

In this 21st hundred years, people become competitive in each way. By being competitive today, people have do something to make all of them survives, being in the middle of the particular crowded place and notice simply by surrounding. One thing that sometimes many people have underestimated this for a while is reading. Yep, by reading a guide your ability to survive enhance then having chance to stay than other is high. For yourself who want to start reading a book, we give you this kind of Vein Pattern Recognition: A Privacy-Enhancing Biometric book as basic and daily reading book. Why, because this book is greater than just a book.

#### **Anderson Austin:**

Your reading 6th sense will not betray a person, why because this Vein Pattern Recognition: A Privacy-Enhancing Biometric publication written by well-known writer who really knows well how to make book which might be understand by anyone who have read the book. Written with good manner for you, leaking every ideas and publishing skill only for eliminate your personal hunger then you still doubt Vein Pattern Recognition: A Privacy-Enhancing Biometric as good book not only by the cover but also with the content. This is one book that can break don't determine book by its handle, so do you still needing another sixth sense to pick that!? Oh come on your examining sixth sense already told you so why you have to listening to yet another sixth sense.

#### **Terry Pullen:**

Is it a person who having spare time after that spend it whole day simply by watching television programs or just telling lies on the bed? Do you need something totally new? This Vein Pattern Recognition: A Privacy-Enhancing Biometric can be the reply, oh how comes? A fresh book you know. You are therefore out of date, spending your spare time by reading in this new era is common not a geek activity. So what these books have than the others?
